ABOUT

LOOUISSLOW

UI/UX DESIGNER
SOFTWARE ENGINEER

PRELUDE

I am influenced with freestyle art and codes, I am a person addicted in codes, art & music and it will so bloody complicated that I don't know how to be a nice guy. They still don't get it what I mean, I remain calm and didn't want to quarrel, I'll be getting silence... Everything began with, when I have found myself true maps to enter world of codes, making a lot of friends over the widest internet, fun coding with interesting people I met.

I worked with several startups as a freelance developer. I built Web services and apps using open source technologies and frameworks such as Python and JavaScript, Backbone.js, NodeJs. I built apps' UIs with cutting edge technologies like HTML/Pug/Jade and CSS/Sass. This allowed me to learn how to work independently, communicate with clients, personal accounting and gain a mastery in modern development tools.

HOBBY

Reading usually. Console Gaming and DIY embedded prototypes. I make some progressive music as well. Check out my recent tracks at [SoundCloud](#). Would you be so kind please leave your comment there. Thanks.

EXPERIENCE

13 YEARS EXPERIENCE!

DOGSBARK

SKILLS

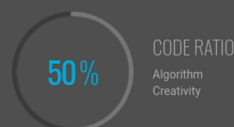

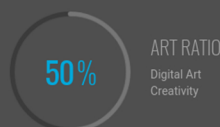

JUST MY AWESOME SKILLS

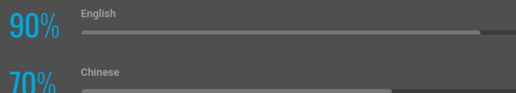

KNOWLEDGE

SKILL BALANCE

LANGUAGE SKILLS

EDUCATION

JUST MY EDUCATION

I always believe experience is more important than what kind of education you have learned.

SHREWSBURY COLLEGE
VISUAL ART & DESIGN
B.DEGREE UK
2008 - 2009

I also am artist. I gave myself a chance to step into a little bit deeper into the art. Also, I am a perfectionist either in UI or UX.

UNIVERSITY OF MANCHESTER
E & E ENGINEERING
B.DEGREE UK
2002 - 2005

I was always wanting to be an inventor like robotic, anything since I was a little kid. But, well, they all came true. I just kept doing it. Never stop.

CHUNG LING HIGH SCHOOL
FORM 5 MALAYSIA
1995 - 2000

Just an ordinary student not very fond of school subjects, beside the computer programming and science classes. Never a good chance in Art class.
